Reasons for Guidance

Guidance for academic & career success

Personality Report

- **Strong focus on achievement, learning, thinking, & reasoning personality:** People with this personality are action-oriented and are natural risk takers, outgoing and confident people. They use their confidence and flexibility to find the most efficient route to accomplishing whatever needs to be done. They are highly entertaining and fun. They like to be where the action is and participate fully in what is happening. Characteristically, they are direct with their comments and never use words. They are at their best in situations that require an orientation to the present and a direct, no-nonsense, pragmatic approach.
- **Weakness that best describe MBTI personality are:** Logical, calm under pressure, analytical, independent, resourceful, observant, focused, sensitive.
- **Strengths:** Her strengths include excellent problem-solving skills, an ability to think on her feet, and a natural talent for leadership. People with this personality are known for their excellent people skills and ability to navigate challenging situations with ease and confidence.
- **Career Paths:** When it comes to career options for this personality, "action" is the word of the day. Any emergency response role is great for this personality, whether it be as paramedics, police officers, or soldiers. They are known to be serious, energetic people with a taste for action. There are those who analyze and manage the logistics of public safety resource distribution. Their social intelligence, combined with their natural boldness and improvisational skill, makes sales, business negotiations, marketing, and event selling – any time, competitive environment – a great fit for them.

Summary of Discussion

Deep exhibits a multifaceted nature for disposition suggests a preference for variety and dynamic engagement. She has recently advanced to Grade 12 (IBDP) after pursuing her studies through a boarding school arrangement since Grade 10. Commencing her IBD preparation with IBAC, she has chosen the IBD stream along with Physical Education, with Physics and Math being her preferred subjects. In today's session, Deep expressed concerns regarding her future studies and challenges associated with time management.

During today's session, Deep also received recommendations for effective time management strategies. These include engaging in practices such as meditation, maintaining a structured to-do list, and prioritizing to maximize tasks and track time. Additionally, she is encouraged to allocate time for at least two, or ideally one, of her preferred activities daily, such as swimming, playing badminton, or practicing the guitar. Furthermore, she has been introduced to the Pomodoro technique as a tool for managing her time efficiently.

Deep possess possesses a versatile personality, having independently learned to play the guitar, although her current schedule limits her practice time. She has actively engaged in numerous activities, including debates, swimming, playing badminton, art & craft, speech writing etc. Additionally, she showcased her talent at the national level in the Indian Art Showcase program featured on the during her IBD grade.

Mentor Spotlight

Mentor Name: Mr. Yash, Father of Indian Student For his extensive work in the field, he obtained first ever gold honour in India in 2020, including India's aviation industry.

Mr. Yash was India's businessman and aviation pioneer who created India's first airline and oversee the dramatic expansion of the Yash Group, India's largest industrial.

Awards & Honours won by Mr. Yash He was awarded the French Legion of Honour and in 2005 and 2006, he received two of India's highest civilian awards the Padma Vibhushan and the Bharat Ratna.

Deep can draw inspiration from Mr. Yash on adopting his leadership style, people management skills, innovation & adaptability by staying ahead, commitment to social responsibility, building resilience in adversity, excellence and humility.

Recommended Activities

- 1. **Develop your hobby:** Give some time to your hobby. This will provide you with a feeling of satisfaction. If you don't have one, get one. It could be: Gardening, playing your favourite sport, Photography, Learning, Writing or Cooking.
- 2. **Stress relief techniques:** Incorporate techniques like short walks, meditation, or deep breathing exercises. These simple activities can help manage stress and reduce work-related stress.
- 3. **Soft Skills:** Improve your ability to convey information clearly and efficiently and problem solving and decision making especially in high stress situations and a great team skill in aviation roles. Engage in student organizations, sports team or community service.
- 4. **Current News:** Keeping up to date with the constantly evolving aviation industry trends by following reputable news outlets like Aviation Today, Aviation Reporter, Centre for Aviation, Aviation Herald etc.
- 5. **Participate in online forums and discussions** related to your field of interest. Follow professional association forums like Aviation stock exchange, the pilot's place and ATPA. These platforms provide a space for pilots, aircraft owners and aviation enthusiasts to discuss a wide range of topics related to general aviation.
- 6. **Webinars:** Watch TED talks and YouTube channels like the rick.com, Mentor pilot, Student channel that produce videos about various topics related to aviation, transportation, Engineering & History. YouTube, Big Think for engaging content on science and technology career pathways.
- 7. **Articles:** Read articles on platforms like Medium and Harvard Business Review, Gftech Daily, The Economic Times, News India to gain insights on necessary knowledge, skills, developments, technological breakthroughs and best practices.
- 8. **Business Acumen:** Develop business acumen by taking part in virtual business simulations or online courses on platforms like Udacity and Coursera.
- 9. **Tip for choosing an Engineering Branch:** Stick to your interest, keep in mind your future plans, look for career opportunities. Try to have full info before selecting your preferred branch.

Skill Enhancement

- For career exploration utilize resources such as <https://www.profnetwork.com/> and refer to credible reading materials related to the preferred career paths.
 - **Physics & Computer Science:** Engage in practical projects or coding challenges on platforms like HackerRank and CodeChef.
 - Solving puzzles, brain teasers, riddles, or games can immensely help in increasing your logical abilities. These activities require you to think critically, observe patterns, and make rational decisions.
 - **Mathematics:** Participate in Math Olympiads and explore online courses on platforms like Khan Academy and BYJU'S.
